Stoke goes to Paris!

On Friday 21st June, groups of children from each school in The Societas Trust, came together in The Stoke Dome to celebrate the Olympics. The countries taking part were put into teams of colour - Brazil (yellow), USA (white), Germany (orange), Poland (pink), Australia (purple), China (red), and France (blue).

After the children got set into their teams, they came together and were given their country's flag to hold. Together, they did a parade with all the national anthems playing. It was really very special.

The Dome was organised into different sporting activities and each country spent time taking part in each activity. They did archery which was led by our very own Mrs Waine. She did a great job and got one of the loudest cheers at the end.

Next, the children did parachute games. This also got a loud cheer at the end of the event. Loads of people liked all the games and commented that they really enjoyed playing the game Fruit Salad. After that the children did sitting hand ball. This got very competitive and one of our children ended up bumping their head!

As well as those mentioned, there were many more activities on offer. These were tri golf, javelin, sitting volleyball, archery, sitting handball, target practice and boccia. The children were kept so busy!

It was a fantastic opportunity for those that were able to take part. We noticed that the children were working really well with other children from

other schools. All were really proud to leave with two certificates to return to school with.
